

1032 SABOVICH STREET, MOJAVE, CA. 93501, FAA REPAIR STATION #UMDR221L, TEL: 661 824-1005, FAX: 661 824-1006

Whom It Concerns,

As an owner operator of a Tri-Star Technologies M-100L Laser Wire Marker, we here at ASB have marked well over 250,000 ft of Mil Spec wire since acquiring our machine in mid 2002. We have marked wire for numerous installations on aircraft from many different manufacturers. Aircraft include 727, 737, 747 and 767 from Boeing Aircraft Company, A300 and A310 from Airbus Industries. The M-100L has required minimal maintenance and has more than suited our needs.

Sincerely,

Cary W Cason
Shop Supervisor
