Model: M100J-FG-TT

The M-100J-FG-TT is a portable, fully automatic, turnkey marking system that utilizes a modular ink jet printer. Its friendly software allows unlimited font selection (any TrueType font for any language) as well as full graphics capabilities (pictures, logos, barcodes, etc). The M-100J FG-TT-A supports both vertical and horizontal text orientation, programmable message spacing, three separate zones of print with variable separation spaces, and source and destination coding on wire ends. Can optionally be configured to utilize UV Curable inks.

- Full Graphics Ink Jet wire and cable marker
- Unlimited font selection
- Variable print capabilities, vertical and horizontal printing, source and destination coding on wire ends and programmable message spacing
- Accommodates 20 AWG to 4 AWG wire/cable
