

## METEOR In-Line UV Laser Marker

### FEATURES

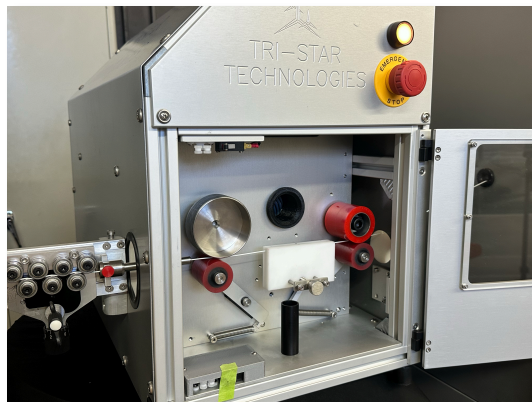

- 355 nm solid state UV laser
- Air Cooled
- Precision measuring
- Class 1 for use on open shop floor
- Processes up to 3 inch width\*
- Fully compliant with all Military and Commercial specifications
- Laptop with Tri-Star Technologies software included
- Full graphics capable
- Table-top unit, modular, mobile
- Prints any alphanumeric information in any font, language, size, also bar codes, logos, etc.
- Machine wire production up to 300 ft/min
- Prints in single and multiple lines
- Utilities: 120/220 VAC  
1 phase, 4 A 50/60 Hz

### APPLICATIONS

- Capable for integration into extrusion or rewind line, pay-off and take-up units

Tri-Star Technologies's new METEOR IN-LINE laser wire marking system provides high speed UV laser marking that can be integrated into different production lines. Additionally, this system can be utilized with an external re-wind line. This system can accommodate any laser markable wires, cables, and tubing from 0.8mm to 76mm. This is a truly versatile and modular system perfect for integration.

- **On-the-fly marking**
- **Fully compliant**, meets all military and commercial specifications
- **Accommodates** any laser markable wire, cable, tubing, pipes, etc. from .8 mm to 76 mm diameter (3")
- **Production Rate** up to 300ft/ min (100m/min)
