

## FEATURES/ SPECIFICATIONS

- Fully automatic operation
- Accommodates most machine style contacts, sizes 12 AWG to 30 AWG
- Loads contacts into hand tool in under 2 seconds
- Accommodates most machine style contact hand crimp tools
- Fast contact changes via a patents pending new parts feeding system
- Includes loading system counter that supports Inventory management systems
- Provides hand-free operation of loose piece contacts
- Easily fits on most work benches supporting multiple operators
- Automatic shutdown in case of malfunction
- Very portable
- All functions PLC controlled
- Prevents FOD

## CrimpXpress™ Automatic Contact Loader

Patents Pending

Tri-Star Technologies, a leader in wire processing equipment, introduces the CrimpXpress™ Automatic Contact Loading System—an innovative solution designed to load most hand crimp type tools.

CrimpXpress™ automatically feeds machine-style contacts into most hand crimp tools, eliminating the need for manual contact loading. This streamlines operations, increasing speed, accuracy, and cleanliness while reducing operator fatigue.

Compatible with a wide range of machine-style contacts, CrimpXpress™ supports contact sizes from 12 AWG to 30 AWG, making it a versatile addition to any wire processing setup.

- **Automatic Loading** of machined contacts into hand crimp tools.
- **Improves Production** throughput by 3X
- **Accommodates** most machined contact hand crimp tools
- **Accommodates** most machined style contacts, sizes 12 AWG to 30 AWG
