

Multi-Wire UV Laser Wire & Cable Marker

The M-100L-FG-TT-A Multi-Wire is a fully automatic, air cooled, turnkey marking system that can laser mark up to 16 different wires/cables on demand. The system utilizes a UV solid state laser with an integrated high-speed scanner. User friendly software allows unlimited font selection (any TrueType font for any language) as well as full graphics capabilities (pictures, logos, barcodes, etc). The system supports both vertical and horizontal text orientation, programmable message spacing, three separate zones of print with variable separation spaces, and source and destination coding on wire ends.

- **Full Graphics UV laser** wire and cable marker
- **Fully compliant**, meets all military and commercial specifications
- **Accommodates** up to 16 different 26 AWG to 4 AWG wires/cables
- **Production Rate** up to 100 ft/min

TRI-STAR
TECHNOLOGIES INC.

manufacturing state-of-the-art equipment
since 1985

FEATURES

- 355 nm solid state UV laser
- Air Cooled
- Precision measuring
- Pneumatic cutting
- Motorized coiling
- Class 1 for use on open shop floor
- Processes up to 16 different 26 AWG - 4 AWG wires/cables
- Fully compliant with all Military and Commercial specifications
- Full graphics capable
- Prints any alphanumerical information in any font, language, size, also bar codes, logos, etc.
- Machine wire output up to 100 ft/min
- Prints in single and multiple lines
- No limits on minimum or maximum length of wires/cables
- Optional pre-feed system available. Will also easily integrate with any standard motorized pre-feed
- Utilities: 220 VAC 1 phase, 10 A 50/60 Hz
