

The Mark of Excellence

UV Laser marking for the pharmaceutical industry
Permanent, Non-Invasive, Traceable.

TRI-STAR TECHNOLOGIES M100LPM150: THE REMARKABLE MARKER

Permanent, indelible, and non-invasive – UV laser marking of tablets and capsules is an industry trend led by Tri-Star Technologies. With our patented technology, our systems mark tablets and gelatin capsules non-invasively and non-destructively. The M100LPM150 creates high-resolution text, barcodes, and graphics. It assures accurate track and trace, 100% verification and aids in counterfeiting measures. Complete DQ, IQ, OQ validation package. FDA 21 CFR Part 11 Compliant, cGMP Design.
