

FEATURES

- Permanent, unalterable text, barcodes and graphics
- Ultra high resolution marking
- Will not fade or degrade over time
- Marks tablets and hard and soft capsules of any size
- Marks oily gel capsule surfaces
- Can print individualized messages
- Surface marking will not affect product
- Field proven laser technology used by the pharmaceutical manufacturers
- Deters counterfeiting
- No product drying or cleaning needed before marking
- Markings are chemically inert, no chemical or molecular changes
- Improves patient safety via traceability of ownership
- Low cost solution for identifying pharmaceutical products at point of dispensation, pharmacies & clinics
- Links to database to facilitate traceability

PORTABLE COLD LASER™ MARKER

- **Completely portable**, less than 45 pounds.
- **Permanent Marking**, with no damage to substrate.
- **Prints on tablets & capsules**
- **Prints text, barcodes and graphics**
- **Perfect for point of sale applications** (pharmacies, clinics), R&D labs, small pilot runs and process verifications

Tri-Star Technologies, a leader in innovative solutions for the pharmaceutical industry presents a revolutionary new portable Cold Laser™ Marking System designed for point of sale applications, small production and pilot runs, etc. Based on the Tri-Star Technologies patented Cold Laser Technology utilized by many major pharmaceutical manufactures, this portable version allows indelible printing on tablets and capsules. This technology allows unique printing on each pill/tablet dispensed, providing for patient traceability, and a tool to help curb drug counterfeiting and drug overdose.

TRI-STAR
TECHNOLOGIES INC.

*manufacturing state-of-the-art equipment
since 1985*

SPECIFICATIONS:

Dimensions:	10" W x 20" H x 22" D
Weight:	under 45 lbs
Electrical:	120/220 VAC 1 phase, 4 A 50/60 Hz
Laser Marker:	355nm solid state UV laser, Class 1 for use on open shop floor
Print Specification:	full graphics capabilities (barcodes, custom fonts and graphics)
Production Rate:	1000/hour*
Software:	Windows operating system, M100LPM-1K/mini operating software, integrated laser calibration software
Support:	12 months, parts and labor

* dependent on image complexity and operator speed
